

JCK Underground – Project Engineer, Greater Boston Area

JCK Underground has an immediate opening for a Project Engineer with experience in the underground and tunneling field to join our team in the Boston area. The candidate should have experience participating as a team member on large scale tunneling programs. Experience in planning and design of tunnels, shafts and underground structures is preferred. Qualifications required include:

- B.S. degree Civil Engineering, MS preferred or equivalent experience in Structural Engineering or Geotechnical Engineering.
- Minimum of 5 to 7 years of relevant experience.
- Proficiency in preparation of structural design, drawings, specifications, and technical memoranda.
- Experience in tunnel excavation, ground support, and permanent lining construction methods.
- Ability to manage several concurrent assignments, priorities, and project tasks.
- Strong communication skills to interface with other consultants and clients on multi-discipline projects.
- Strong technical writing skills.
- Excellent interpersonal and teamwork skills.
- Proficiency with gINT, preferred.
- Professional Engineering registration in MA or ability to obtain.
- Ability to travel within US and Canada for short term assignments.

JCK Underground is an EEO/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, veteran status, or other characteristics protected by law.
