

JCK Underground – Senior Construction Manager, Norfolk Virginia

JCK Underground has an immediate opening for a Senior Construction Manager to serve as the Tunnel Resident Engineer for a major soft ground design build project in Norfolk Virginia.

Qualifications required include:

- Possesses in-depth practical experience with soft-ground TBM tunneling with pressurized-face.
- Significant knowledge and experience implementing ground improvement and stabilization methods.
- Understanding of design of underground structures.
- Experience in design-build process and the Resident Engineer's role during design development and construction.
- Experienced in hands-on application of construction management practices for heavy-civil underground projects.
- Providing overall leadership and guidance to Client's field staff in preparing for and implementing quality oversight of tunneling work.
- MS in Civil, Structural, or Geotechnical Engineering.
- 25 years relevant experience.
- Strong communication and technical writing skills.
- Excellent interpersonal and teamwork skills are essential.
- Strong analytical and technical communication skills.

JCK Underground is an EEO/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, veteran status or other characteristics protected by law.
