

JCK Underground – Staff Structural Engineer, Nashville, TN

JCK Underground has an immediate opening for a Staff Structural Engineer in the underground and tunneling field to join our team in the greater Nashville area. The candidate should have knowledge of structural analysis, design of reinforced concrete and steel, material standards (e.g., ACI), and building codes (e.g. IBC or ASCE 7). Qualifications required include:

- B.S. degree Civil Engineering, MS preferred or equivalent experience in Structural Engineering;
- 0 to 3 year's relevant experience;
- Ability to manage concurrent assignments;
- Strong communication skills to interface with other consultants, clients and co-workers on multi-discipline projects;
- Strong technical writing skills;
- Excellent interpersonal and teamwork skills;
- Ability to obtain professional engineering licensure after meeting experience requirements for relevant state board (TN or CA licenses preferred);
- Willingness to travel within US and Canada for short term assignments.

JCK Underground is an EEO/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, veteran status or other characteristics protected by law.
